

Dräger Safety Solutions

No matter what dangers your team faces, Dräger has a solution to keep them safe.

Dräger

Technology for Life

Respiration Protection & Escape

Dräger X-plore® 3500/5500/8500 Respiratory Devices

- Air purifying solutions for industrial applications
- Half masks, full face masks and PAPR sets available
- Safe, comfortable fit so you can focus on your task

Dräger PARAT®, Oxy® SR 30/60, Saver CF Escape Devices

- High-quality breathing protection for hazardous environments
- Designed for quick, easy use under extreme conditions
- Emergency escape solutions ranging from 15 to 60 minutes

Dräger PAS® Colt Short-term Breathing Apparatus

- Combines versatility, ease-of-use, and the latest in breathing apparatus design
- Ergonomic harness design makes it easy to don quickly
- Machine-washable and easy to maintain

Dräger PAS® Lite & PSS® 3000 Self-Contained Breathing Apparatus

- The ultimate in high-performing breathing protection for industrial applications
- Lightweight yet robust, it combines comfort with exceptional performance
- Designed for applications where simplicity and ease of use are essential
- PAS® Lite and PSS® 3000 available in low pressure (2216 PSI) or high pressure (4500 PSI) configurations

Dräger Rescue Pak & K-KART II Mobile Air Sources

- Mobile air source for up to 4 supplied air respirators
- Dual gauge for cylinder and outgoing pressures
- Light and heavy-duty airline hose available

Drug & Alcohol Detection

Dräger Alcotest® 5000/6000/7000

- Allows users to effectively perform breath alcohol tests with speed and precision.
- Designed for compatibility with other Dräger accessories such as the Bluetooth printer, mouthpieces, funnels, and more

Dräger DrugTest® 5000

- Experience the precision and speed of our non-intrusive oral fluid testing technology, enabling accurate and swift detection of up-to 8 drug substances
- Accessories: Drug test swabs, IR printer, keyboard, hard carrying case

Dräger DrugCheck® 3000

- Compact and disposable one time oral fluid drug screen
- Capable of testing up-to 6 commonly abused drugs
- Using the Dräger DrugCheck® App, you can scan, reliably evaluate, log, send and archive your test results in just a few steps.

Gas Detection

Dräger X-am® 2500/2800/3500/5000/5600/5800 Multi-Gas Monitors

- Reliable sensor technology accurately detects multiple gases
- Can measure up to 6 gases simultaneously
- External sample pump unit until 45m - Sold Separately

Dräger PAC® 6000/6500/8000/8500 Gas Detection Devices

- Personal single-sensor detection
- Reliable and precise, even under the toughest conditions
- User-friendly display with all important information

Dräger X-act® 7000 Analyzer

- Get lab-quality measurements – right on site in a fraction of the time!
- Innovative opto-electronic analysis precisely measures gases in the low ppb range
- Easy to use: just insert Dräger MicroTubes, start measuring and read the result

Dräger X-dock® 5300/6300/6600 Calibration & Bump Testing

- Save time with automatic bump tests and calibrations
- Save costs on test gases with reduced test gas consumption
- Gives you full control of your portable Dräger gas detection instruments

Dräger X-pid® 9500 Multi-Gas Analyzer

- Selective PID gas measurement with short test times and lab-quality results
- Ideal for users who frequently test for hazardous toxic substances
- No consumables for reduced operating costs

Dräger X-am® 8000 Multi-Gas with Available PID

- Ideal for convenient, reliable clearance measurements
- Can measure up to 7 gases simultaneously
- Perform Benzene specific measurements using built-in assistants

Dräger X-zone® 5800 Area Monitoring

- A safer, more effective way to monitor for hazardous gases
- Transforms the Dräger X-am, 5000/5100/5600/5800 * (Available 2025) into an area monitor
- Can measure up to 6 gases simultaneously

Dräger Short-term Tubes

- A very cost-effective and reliable method to measure of gases and vapors
- Quick, targeted measurements
- Accurately make spot measurements for over 500 gases and vapors

Dräger Accuro® Hand Pump

- Easy-to-use manual pump with a high degree of reliability
- The all-in-one solution designed for measurements with Dräger short-term tubes
- The handling of gases, vapors and aerosols has never been easier

Head Protection

Dräger HPS® 3500 & HPS® SafeGuard NFPA Head Protection System

- Universal size, adjustable for head sizes from 52-64 cm
- 4-point harness and padding for optimized comfort
- Designed for emergency teams, in search and rescue missions, and technical support in emergency situations and firefighting (HPS SafeGuard NFPA).
